Stylish good looks. That's my Escape.

Your new Ford Escape has a new, stylish design. Its distinct bolder grille, sleek aerodynamic headlamps, LED taillights and the well-defined feature lines on the hood give it a commanding look, superior ride height and the large air intake in the front bumper underscore its strong SUV capability.

Comfort and craftsmanship. That's my Escape.

The longest treks will be a walk in the park with the Ford Escape. There's ample room for 5 adults, with double door seals for a quieter cabin. Everything is laid out for you: leather seats*, easy reach buttons and a new center console with cold blue illumination.

A comfortable armchair-like seating, one touch climate control and a 6-CD MP3 player* makes extended drives a pleasure. With seats that fold flat and roof-rails*, you'll be able to handle just about any cargo for that long weekend, while the standard dual SRS airbags for the driver and front passenger include side* protection that provides you extra peace of mind.

2-tier arm rest console

Integrated design and flexible storage. That's my Escape.

The center console armrest now provides more flexible storage by opening in two stages to reveal a shallow storage area at the top and a much deeper storage bin underneath. The two bins can store up to 10 CDs plus a pair of sunglasses and two cell phones. This is a real surprise and delightful feature - an example of the attention to detail that Ford puts into every vehicle.
